Who is the Sponsor*?

For-Profit Company/Entity: Full rate according to type of work performed — F&A Rate Reduction Requests unlikely to be approved

Government Entity

Federal Government: full rate according to type of work performed

State of Iowa: full rate according to type of work performed

What type of work is performed?

Applies Sponsor’s rate and attach documentation to routing form with proposal.

Yes

Non-Profit Foundation

Does Sponsor have its own published rate**?

No

Contact DSP. We may have a previously established rate for this Sponsor OR we can award at 15% if full rate not acceptable

Corporate and Industry Sponsored Clinical Trials

Corporate and industry sponsored clinical trials are studies funded by a corporation and which involve evaluation of a technology or product, including Phase 1-3 clinical investigations, Phase 4 postmarketing studies, IDE investigations, and postmarket surveillance studies involving human subjects. UI’s F&A rate for all industry-sponsored clinical trials is 30% of total direct costs (TDC). If the industry sponsor insists on paying a lower F&A rate (for example, 20%), 30% will still be assessed on the funds. The investigator must decide whether the research can be performed for the amount that is available for direct costs.

Please Note: not all projects funded by pharmaceutical companies qualify as Corporate and Industry Sponsored Clinical Trials. Does not include Clinical Trials with the Federal Government as Prime Sponsor, or a collaboration between the Federal Govt and a for profit company.

Other Sponsored Activities include externally funded projects which involve the performance of work or activities that are not considered Organized Research or Instruction; includes Fee For Service work, Support for conferences or seminars, Community Service Programs, Consulting, etc. (This is not common; CANNOT include projects involving Human Subjects)

Basic or Applied Research: 55.5% for awards starting 07/01/2022

Instruction: 46% 07/01/2022

Corporate Funded Clinical Trials: 30%
