Turn-around Time to Significant Process Points

**Non-Monetary Agreements
Average Weeks**

Time is calculated from the OK to Start Date, which is the date that DSP has all the requisite information needed to start processing an agreement.
 Back to Sponsor encompasses the time DSP needs to review the agreement and formulate a response or, in some cases where the agreement doesn't require a response, finalize the agreement. It can also include time with other campus offices and/or the PI if questions need to be addressed prior to sending a response to the Sponsor.
 Negotiations Complete encompasses the time to negotiate an agreement, including time with the Sponsor and/or time with the PI.
 Ready to Award is date at which the agreement can be awarded and sent to Grant Accounting. Various approvals, such as for human or animal research, can delay the award.
